Notice of Proposed Action

August 7, 2007

The Nevada Division of Environmental Protection is issuing this Notice of Proposed Action under the Nevada Revised Statutes and the U.S. Clean Water Act. The Division has received a complete application for renewal of National Pollutant Discharge Elimination System (NPDES) permit NV0022748 from

Department of Public Works
City of Las Vegas
731 S 4th St
Las Vegas NV 89101

for a discharge from the remediation system serving the city's Bonneville Ave underpass at the railroad crossing east of Grand Central Pkwy. The underpass extends below the water table and pumping is necessary to remove accumulations of stormwater and groundwater. Groundwater is treated due the presence of a fuel plume from the adjacent property. The Division has prepared draft NPDES permit NV0022748 for the groundwater treatment system discharge to the storm drain, and has made the tentative determination to issue it for a 5 yr term. Comments, objections, or public hearing requests on this matter must be submitted in writing to:

Bureau of Water Pollution Control
Nevada Division of Environmental Protection
901 S Stewart St Ste 4001
Carson City NV 89701-5249

by 5:00 P.M. Monday September 10, 2007. Mail postmarked on that date will also be accepted. Hearing requests must indicate the interest of the person filing the request and the reasons why a hearing is warranted. Any public hearing would be preceded by a thirty day public notice period. If no hearing is held, and substantial changes are proposed in response to comments received, a new public notice period would be conducted for the revised permit.

Copies of the application, proposed permit, and other information on file may be obtained by contacting Robert J. Saunders at the address above or at (775)687-9437 or rsaunder@ndep.nv.gov. In addition, the fact sheet and this notice are posted at <http://ndep.nv.gov/admin/public.htm>. The office fax number is (775)687-4684.
